GARDEN CITY UNIVERSITY

University Established under Karnataka State Act 47 of 2013

GCU/GH/AR/2019/463

26th June, 2019

To,

The Executive Director
Karnataka State Higher Education Council
Bangalore - 560 009

Sub: Submission of the Annual Report for the Academic Year 2018-19.

Sir,

I have the privilege to submit the Second Annual Report of Garden City University for the Academic Year 2018-19. The University commenced its academic activities for the second year in June, 2018. The University continued with the efforts to run all its programmes in an atmosphere of high discipline, strong academic commitment and transparency effectively as in the past.

The main focus of the University has been to get best out of the students and all the programmes have been dovetailed to achieve student centric development. The reforms in the examination system being introduced have resulted in creating a fair and transparent atmosphere which the students have greatly appreciated. Further, the attendance of students in class rooms has been excellent and the examination results above expectations.

The faculty members continued with effective implementation of UGC Choice Based Credit System (CBCS) and the transformation persisted with introduction of foreign language courses. With the introduction of international student exchange programmes, the University established its presence on the world map. The motto of the University 'Emphasis on Life' has been the guiding factor in all the activities of the University to achieve the ultimate, of achieving academic excellence in students and making them responsible citizens of the Country.

With the above advancements carried out in the second year, the University proposes to march ahead in the year to come with greater vigour and commitment.

Yours sincerely,

Prof. V B Coutinho
Vice Chancellor

Executive Summary

Setting new benchmarks in higher education

The Annual report 2018-19 of Garden City University encapsulates the overall activities of the University for the academic year 2018-19 to achieve standards of imparting outcome based education and holistic development of students. The exhaustive report provides a complete overview. The University is in its second year of operations and in these two years, the University has ensured to provide a very conducive environment towards learning.

The leading achievement during the last academic year was the visit of the UGC Expert Committee constituted by UGC for inspection of the standards implemented in the University and submission of the compliance report to UGC with their recommendations. Thereby Garden City University was recognized as one of the youngest University to have contacted UGC Expert Committee for an inspection and it resulted in Garden City University being approved by UGC, Government of India.

The University had also applied to the Association of Indian Universities (AIU) for membership and the same was approved and we are glad to be listed as a member of the AIU.

Curriculum Design at GCU

The curriculum followed in the University is crafted very carefully keeping in mind the current advances in various fields of study. The team involved in curating the syllabi includes experts in the area along with experts from the industry. The University has adopted the Choice Based Credit System of curriculum designing and we find the students and faculty members to have well adopted the system.

The academic flexibility and autonomy vested as in a State Private University has aided the changes pertaining to designing better curriculum and forging relationship with the best Universities in the world especially from Spain, UK and France.

A University that grows with the students

The student enrolment witnessed a positive momentum with in growth from the previous academic year. Deserving students were awarded scholarships amounting to INR

5.3 crores. Besides this, seventeen other external scholarships have been facilitated to the students of GCU.

With a legacy of being a host to students from 81 nations, the academic year 2018-19 saw student representation from 19 countries and all the States and Union Territories of India.

The overall results of the End Semester Examinations showed a prudent range of 65-72 % pass in Undergraduate Programmes and a 90-95% pass in Postgraduate Programmes.

Research and Innovation

The research and innovation council of GCU hosted activities that engaged students and faculty members in research, training and development.

MDPs in association with BAIF Development Research Foundation and Entrepreneurship camps in association with DST-NIMAT Project, Govt. of India are among the funded and government collaborated activities taken-up by GCU.

Quite a number of MoUs including Industry tie-ups, University partnerships and professional training programmes were signed. Several innovative ideas were filed for patent. The University has also published the 2nd Volume of Journals from various Departments.

Caring for the students

Building a comfort zone for new students

The comfort of students and their peace of mind are the primary objectives of Garden City University when a new student steps into the campus. The University every year organizes Fresherism (FRESHERS DAY) to introduce the new students with the campus culture and lift the comfort level. The event is organized by the seniors with assistance **from the teachers of the institution**. Furthermore, the campus has the record of having no instances of ragging with proactive measures taken by the monitoring committee and sensitization of students as per UGC directives.

PTA Meets

The university also emphasizes on building a beautiful student-parent-teacher relationship and hosts PTA meets from time to time with provisions for video calls on WhatsApp or SKYPE with parents at their convenient time.

Positive psychology

Promoting the concept of Positive Psychology, the University follows the PERMA model of wellbeing (Positive-Emotions, Engagement, Positive Relationship, Meaning and Accomplishment) under the guidance of the Counselling Centre - Department of Psychology. Its activities include individual capacity building, counselling and developmental group activities.

The global perspective

The global perspective of education was enhanced through a study abroad programme in France and Spain. Knowledge transfer and cultural exchange MoUs were signed with 7 Universities across the globe.

students' playground

The spirit of sportsmanship is displayed through several intra and inter-University sports meet, the highlight being an exclusive event to re-kindle the traditional games from across India.

The Placement and Training Cell

The placements and training cell organized different Internship and placement training activities across various departments in the University. 157 companies have visited the University for Placements and Internships which stand testimony to the quality of students.

Leading the way

Dynamic leadership

The dynamic and progressive leadership of the University is reflected in the various initiatives that are oriented to the needs of the current generation. The IQAC conducted scheduled academic audits to ensure optimum performance at all the schools in the University and administrative audits at various operational and support units of the University.

Feedback and grievances

Feedback and grievances from various channels were monitored and addressed including queries from online sources and social media. An automated system is in place.

Automation of examination processes

The automation of examination processes and updating of student portal and staff portal have aided the e-governance and workflow of the University to achieve better efficiency.

Statutory bodies

The statutory bodies and units of the University ensure a motivating work and study environment by providing equal and unbiased opportunity irrespective of caste, creed, gender and economic backgrounds.

Beyond education

All for humanity

GCU has been the forerunner for several University Social Responsibility (USR) including active participation in pulse polio campaigns, Prime-Ministers VISAKA campaign, Pulse polio campaign, donating books to rural Government Schools and Blood Donation Camps.

Research

GCU initiated several best practices like GCU PERFECT – Projects Establishing Research Fraternity and Enhancing Core Technology, to instill research-oriented study among the students and to create a pool of research projects which will have lasting social impact. These research proposals were granted funds from the Chancellor's research fund.

Addressing today, tomorrow, day after

Understanding the present and future opportunities in India and to enable our students to ride the entrepreneurship waves, 23 activities in enhancing entrepreneurship and employment were conducted. The activities include various aspects ranging from Ideation, Patenting to Strategic alliance with Hadassah University, Jerusalem, Israel for internship opportunities and exchange trips to global entrepreneurship hub including Israel.

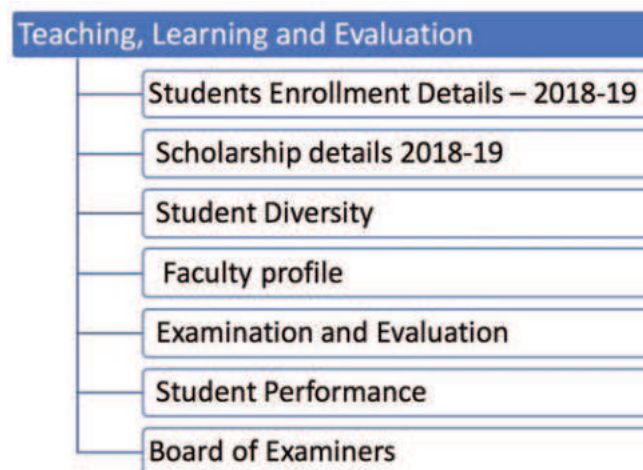

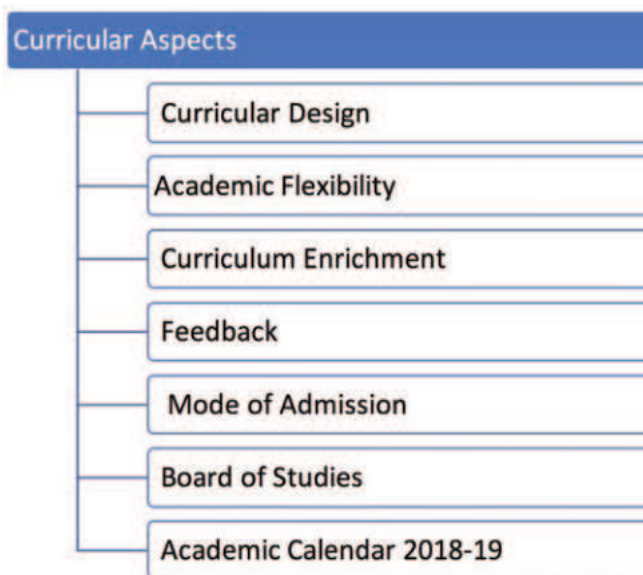

Rooted in the tradition

Yoga and Ayurveda fundamentals are taught at Garden City University to spread its positive impact on the body and soul of the students as well as everyone associated with the University. Every international student on a student exchange programme gets a flavour of these Indian traditional wellness programmes.

Unity in diversity

The student diversity at GCU comes together to display their regional diversities and derive various learning outcomes from organizing folk, food and cultural events.

Garden City University is a student centric University having a focused research directive and practical oriented learning.

Curricular Design

The programmes at Garden City University are formulated incorporating several essential elements to give the students in depth knowledge and professional competence with the following objectives:

- Knowledge enhancement
- Industry integration
- Research Progression

The Curriculum design at GCU is focussed on the students practical quotient and experiential learning. This helps in emphasising on the personal, academic and professional growth of each student. GCU_CD (GCU Curriculum Development) had incorporated a system development Model which has 5 phases: Planning, Designing, Implementing, Analysis of outcome, Scope for improvement.

The GCU_CD model takes to consideration the time frame of the course under each programme and the methodology followed in teaching learning process.

The 5 phase model identified the need of the hour and transformed this need into learning objectives in the planning phase and chose appropriate strategies for curriculum transaction and explored relevant learning experiences. Progressive testing on the analysis of outcome and necessary suggestions were given for the scope for improvement.

The orientation of GCU_CD curriculum is constructive in nature and is multi-centred i.e., knowledge centred, society centred – with emphasis on JOL (Joy of Learning), PDSK (Professionally Doing and Scientifically Knowing), PEQ (Practical Exposure Quotient), ARM (Ambition Resource Mentoring) thereby extracting the hidden talents from students for a better nation. The GCU_CD helps in exploring relevant learning experiences. A detailed analysis of the previous academic year performances was made and the curriculum was accordingly amended wherever necessary.

The following programmes were curated in the above manner for the forthcoming academic year:

Sl No	Name of the Programme
1	B.com Hons in International Accounting and Finance in association with ACCA (UK)
2	B.com Hons in Risk Management in association with CIMA (UK) & AICPA (USA)
3	B.com Hons in Strategic Finance with CMA certification by IMA (USA)
4	B.Sc Forensic Sciences, Chemistry, Genetics
5	B.Sc in Interior Design
6	B.Sc Medical Laboratory Technician
7	M.Sc Information Technology
8	M.Sc Psychology
9	MSc in Fashion and Apparel Design
10	PGDM with specialization in Business Analytics
11	PG Diploma in Sports Fitness
12	PGD in Artificial intelligence & Machine Learning
13	Certificate programme in Apiculture
14	Diploma Programme in Apiculture

Academic Flexibility

GCU follows the Choice Based Credit System pattern and the students have the flexibility of choosing their courses.

The students have the option of selecting languages in their course on Modern Indian Languages.

Selection of Generic Electives where in the student chooses to do a course offered by any school of study.

Selection of Discipline Specific Electives - the students are offered choice of courses in their V and VI semesters to choose from.

The students also have the flexibility to choose the area in which they want to do their dissertation or internship.

Curriculum Enhancement

Education has to constantly evolve and grow to meet the needs of our ever changing society. In recent years the pace of change has become very rapid and in certain areas, our education system has struggled to implement the changes needed to keep pace. Curriculum defines the education system in terms of a body of courses to be run as a guide. Undoubtedly, out of curriculum comes curriculum reforms. The process of curriculum change in higher education institutions, involves an interplay of global, national and institutional factors. Generally, it takes many forms and directions within which the meanings and methods of education delivery are altered.

At Garden City University (GCU), curriculum reform has been accepted as a process that changes the shape and nature of higher secondary degrees reflecting generally acknowledged academic standards of excellence; skills, knowledge, and understanding to help students prepare for the future; and the goals and mission of the University. No effort at reform can succeed without adequate support for the members of faculty who have primary responsibility for the curriculum, nor can it succeed unless it addresses the needs of a diverse student population.

GCU has introduced CARES (CONTENT ANALYSIS AND REVIEW OF EXISTING SYLLABUS).

The goals of higher education curricula should include mastery of basic skills, active participation in the learning process, in-depth study, critical thinking, understanding of a discipline's characteristic methods, and a coherent and relevant course of study. The goals should also be consistent with GCU principles such as faculty control, equal access to quality education for all students, and multicultural understanding.

GCU is the culmination of 27 years of successful operation of Garden City College of Science & Management Studies affiliated to Bangalore University and Garden City College of Physiotherapy affiliated to Rajiv Gandhi University of Health Sciences. Moreover, all the professional courses offered here are approved by All India Council for Technical Education. Garden City College has undergone three cycles of re-accreditation by National Assessment & Accreditation Council (NAAC) with the highest grade "A". The institution has also received ISO 9001:2008 and ISO 14001:2004 certifications.

While conducting the curriculum provided by these renowned Universities, various difficulties were faced in terms of reviewing and revising the curriculum. Flexibility to acquaint with the global changes and implementing the need of the hour courses was missing in the curriculum. That is why, GCU started its operations of curriculum development with the presence of syllabus content from these renowned Universities retaining up to a maximum of 75% along with the mix of

contents generated under the directives of national and state planning commission on education.

Considering the above mentioned points, GCU has taken up the following reforms while designing the curriculum and applying CARES helps us in focussing on the following:

- 1. Introduction of curriculum plan:** At GCU, we have introduced the concept of designing goals, objectives of development and learning outcomes for each of the courses which answer three basic questions that a student might be having before he/she begins studying the course – Why am I studying this course? How am I going to learn the concepts? And, what am I going learn out of this course?
- 2. Introduction of learning outcome framework - KLAAP:** At GCU, we emphasize on the fact that learning doesn't happen only through classroom lectures but through application and analysis of those concepts. We strongly believe that experiential learning is the principal catalyst behind academic development of a student. With the same objective, we have designed a learning outcome framework called "KLAAP". Here, K stands for "to know and to understand", L stands for "to learn and to remember", A stands for "to analyze" and Ap stands for "to apply".
- 3. Introduction of teaching plan:** Teaching plan of a course comprises of all the methods and tools that a lecturer will use in making the lecture delivery in the class. This is a unique way of making a guideline or a reference point for lecture delivery that is adopted at Garden City University.
- 4. Periodic revision of the curriculum:** At GCU, we believe on realignment of the curriculum structure with respect to the need of the industry and current trends. We revisit the curriculum plan at the level of each programmes and take a top-down approach even up to the level of each sub unit. We also collect feedback from various stakeholders to arrive at a revised curriculum if required.
- 5. Restructuring the curriculum:** We consider restructuring the curriculum depending upon the need of the society, industry and feedback from the various stakeholders. This exercise is carried out once in each academic year at the level of each academic school which means every new semester has revised syllabi.
- 6. Reassess the course content:** Assessment of the course content in line with the course objective is done once in each academic year to check the relevance of the same in terms of learning outcome desired.
- 7. Introduction of new and innovative courses:** New and innovative courses are introduced keeping in mind the industry demand, e.g., business analytics course

in BBA is introduced to cater to the growing need of analytics professionals in the industry, worldwide chartered accountancy certifying body's syllabus is integrated into the BCom syllabus to make the BCom students prepared for these certifications in future if need arises.

8. Industry integration and alliances: Integration and alliances with industry bodies and organizations like Atos, Oracle academy and IBM are done to create career oriented courses as advised by UGC.

9. Academic alliances and collaborations with the centre of excellence: Academic collaborations are done with various centres of excellence like Indian Institute of Management Bangalore, Indian Institute of Technology Mumbai and Indian Institute of Science Bangalore to add value to the various programmes offered at Garden City University.

10. Revision of reference material with concurrence to the centre of excellence: Course materials and content are constantly revised in concurrence with the various centres of excellence like Indian Institute of Management Bangalore, Indian Institute of Technology Mumbai and Indian Institute of Science Bangalore.

11. International alliances: International acceptability and accessibility is created for the students of Garden City University by signing MoUs with foreign universities like Universidad Camilo Jose Cela (Madrid, Spain), University of Sorbonne (France), Universiti Putra Malaysia (Selangor, Malaysia) and Hadassah Academic College (Jerusalem, Israel).

12. Career oriented modules leading to higher placement cap: Various career oriented modules are incorporated in the programmes of Garden City University to raise the employability of students like data analysis through excel, Foreign language courses, etc.

13. Local and National communicative process leading to removal of MTI: Introduction of local and national language courses for all the students is an initiative towards removal of the mother tongue influence in each of them.

14. Certification courses from IIM, KPMG & IBM: Students at Garden City University are given options to undertake various certificate courses offered by Indian Institute of Management Bangalore, KPMG and IBM in order to achieve their career goals.

15. MOOCs: Massive Open Online Courses are integrated in the pedagogy of Garden City University to create a sense of self responsibility in the students and also give them an edge over the students of other institutions.

CARES process carried out in the year 2018 is elaborated in the chart below, wherein orange bars denotes the number of courses reviewed and the blue line denotes the number of programmes reviewed under each school of study. The names of each school of study is abbreviated as below:

SCM: School of Commerce and Management

SS: School of Sciences

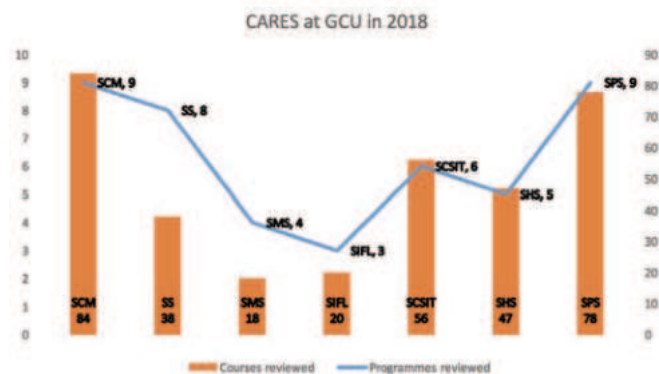

SMS: School of Media Studies

SIFL: School of Indian and Foreign Languages

SCSIT: School of Computational Science and Information Technology

SHS: School of Health Sciences

SPS: School of Professional Studies

GCU Feedback Assessment System (2018-2019) Automation In Feedback Collection System

INTRODUCTION

At Garden City University Feedback management system is a continuous process which enables students to submit their feedback for a particular class around the semester. The process of collection of feedback for particular session is collected through the online portal. The feedback questionnaire is a generic form which is provided to every student through their student portal. The frequency of submission of feedback from the students is based on their individual prerogative but the standard of frequency is fixed at minimum 3 and maximum 10 feedback submissions. The questionnaire includes sets of responses which the students either need to tick or choose from a drop-down option provided in the portal. The responses from the student's end is collated with the help of a calculation matrix which considers the mean value of the total responses accumulated and assigns a score for the individual session or the faculty member. The feedback responses from the student's end are kept anonymous and the resultant score can be viewed only by the administrator's login which can be viewed by the Registrar of the University. After the collation of the feedback report the feedback management system form is filled with the data and shared with the Registrar's Office. The feedback collection method is followed throughout the semester and the academic audit team strictly monitors the functioning of the feedback submission and further proceedings. The necessary measures to address any concern raised through the feedback report is opined and governed by the Office of the Registrar. The continuous monitoring of the measures undertaken to resolve any concern as raised during the feedback submission from the student's end is also under the observations of the Office of the Registrar.

Principles of Feedback Management System:

- Active engagement techniques employed by faculty members are assessed through feedback.
- Enhancement of teaching learning experience through feedback management system.
- Communication pertaining to the information about the feedback is delivered directly to the students.
- Schedule specific collection of feedback (timely submission).
- The quality of the feedback collection method is maintained properly.
- The rate of delivery of the feedback reports are consistent.

OBJECTIVES

1. To establish a systematic process to collect the suggestions from different stake holders about the modes of action to be implemented for further improvements of the academic processes.
2. To develop a common platform to share suggestions among the teachers and the students to facilitate the development of customized teaching tool. Depending on the student's interest and the ability of retention, the teacher can design his or her method of course delivery.
3. To establish a culture of fair academic processes in the campus. The feedback assessment model provides transparent analysis of the feedback report and further actions are considered.
4. To monitor the status of the teaching learning experience among students for a particular class.
5. Depending on the feedback assessment report the governing authorities can implement certain alterations in the academic processes.

STEPS INVOLVED IN SUBMISSION OF FEEDBACK THROUGH STUDENT'S ONLINE PORTAL

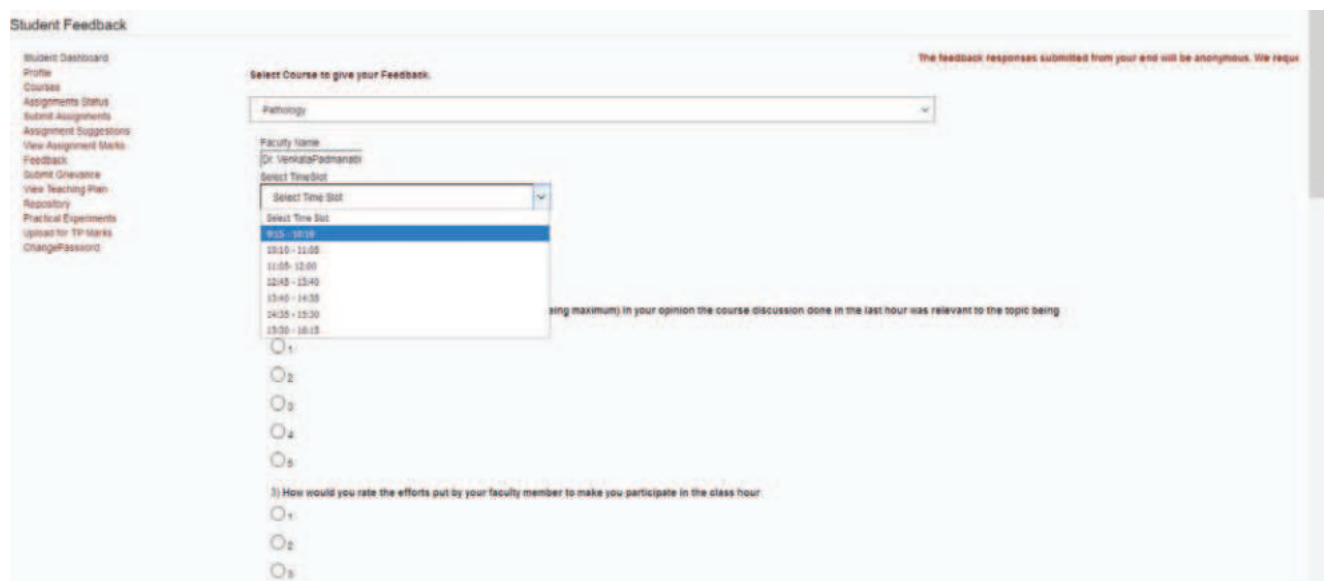

STEP 1: Visit www.gardencityuniversity.info and login with your credentials (Username and Password)

STEP 2: Click on "Feedback" option on the menu

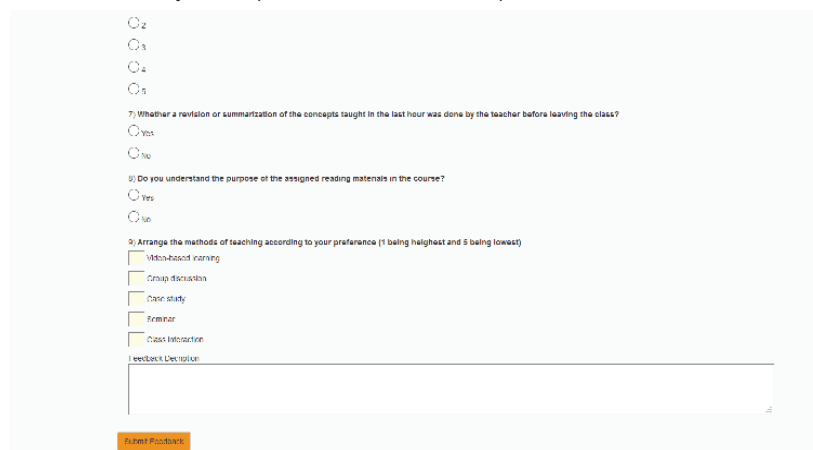

STEP 3: Select an individual course from the drop-down

STEP 4: Select the time slot for the session for which you are submitting the feedback

STEP 5: Submit your responses for all the nine questions and enter text in the description box (if any)

STEP 6: Once you are done, click, "Submit Feedback"

Student Diversity

The legacy of the institution over the last 27 years has been of opportunities provided to scholars from 81 countries worldwide. During the academic year 2018 – 2019, we had students from 20 different countries and from across all states of the country under one umbrella – Garden City University. The University provides hostel facilities catering to these students as Home away from Home. This brings out unity in diversity and the students learn diverse culture and provides a platform to learn out of the box.

Examination and Evaluation

End Semester Examination (ESE)

- Assessment – Continuous Internal Assessment (CIA) + End Semester Examination (ESE) – 40% + 60%
- The duration of the ESE varies based on the number of credits of the course. For a 4-credit course the ESE is for 2 hours. For a 3-credit course the ESE is for 1 ½ hours and for a 2-credit course it is for one hour.
- The question papers are generated through an automated system
- Pre-preparation of question bank reviewed by internal as well as external experts
- Every question paper has a bar code on the top right-hand corner. The question papers carry a barcode indicating the course type.
- For courses that are common to all the programmes different types of question papers (A, B, C) are generated to avoid malpractice.
- Check points and security features in the system:

The system is designed in such a way that it permits the generation of question papers of only those courses that have an examination on that day. As such there cannot be a pre-printing of the question paper.

Every question paper carries a unique bar code that is linked to the subject code.

There is an OTP created during generating the question paper, the OTP is received by the Controller of Examinations through mail and the paper can be viewed only by providing the right OTP.

The question papers can be printed only in the access monitored printer attached to the given system.

The question papers are printed on papers that carry a security feature.

The question papers generated and printed are then distributed room wise in various packets and sealed before taking it out of the control room.

- The answer booklets are designed such that they do not carry the register number of the student, instead there is a unique bar code which each answer booklet carries and this unique bar code is linked to the student register number, the semester, the programme and the course.
- Registration for examination is online and the hall tickets are also generated online through the GCU student portal.
- The hall tickets are linked to the attendance as well as the CIA, thus the students who fail to secure the required attendance and CIA will not be able to print their hall tickets.
- The hall tickets carry a bar code which is scanned during their entry into the examination hall. This bar code is linked to the student register number and the photo. Students who are not eligible are denied access in to the examination hall.
- The seating positions of each student is marked by a seat number instead of the register number. A seat matrix paste at the entrance of the examination venue helps the student identify the seat number they are tagged to.
- The students are required to be in the examination hall 30 minutes prior to the commencement of the examination. Students are strictly prohibited entry if they are late.
- Once in the examination hall the first 30 minutes is used to distribute the answer booklets, take the signature of the student in the room supervisor diary. The question papers are distributed 10 minutes prior to the commencement of the examination, the students are given a 10 minutes reading time.
- Students are expected to remain in the examination hall till the completion of the examination and are not permitted to leave earlier.
- The entire process of examination is under surveillance, and a team of squad members constantly monitor the process.
- The university has established a University Malpractices Lapses Enquiry Committee (GCU UMLEC –University Malpractices & Lapses Enquiry Committee) that would check on all the malpractice cases.
- End Semester Examination for a few courses is online (MCQ) type as well as practical performance based.

Eligibility criteria to appear for ESE

- Eligibility to appear for ESE – 75% attendance + minimum 50% in CIA

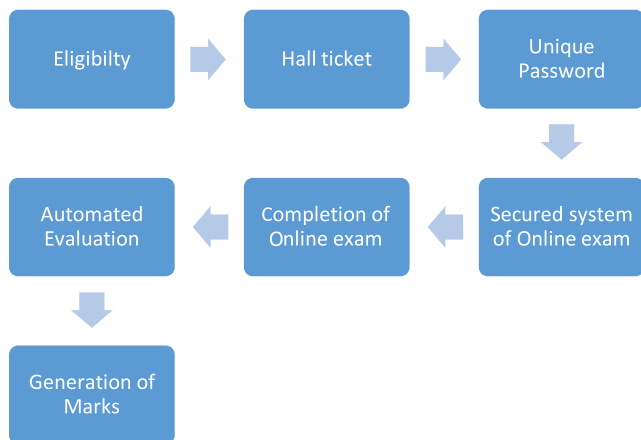

ESE Evaluation Procedure

GCU Board of Evaluation (BoE):

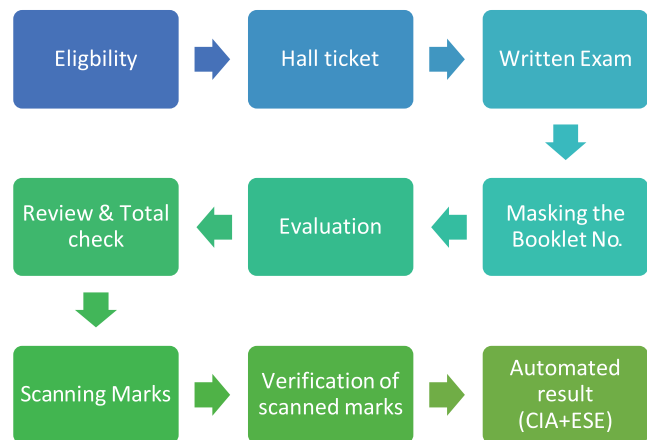

- The BoE is responsible to conduct the centralized evaluation process. The board conducts two types of evaluations: Written exam and Online evaluation.
- Evaluation of Online examination: The SEC papers such as Speaking Kannada, Use cases of predictive analytics examinations are conducted online and the evaluation is also done automatically.
- Evaluation of written examination process:

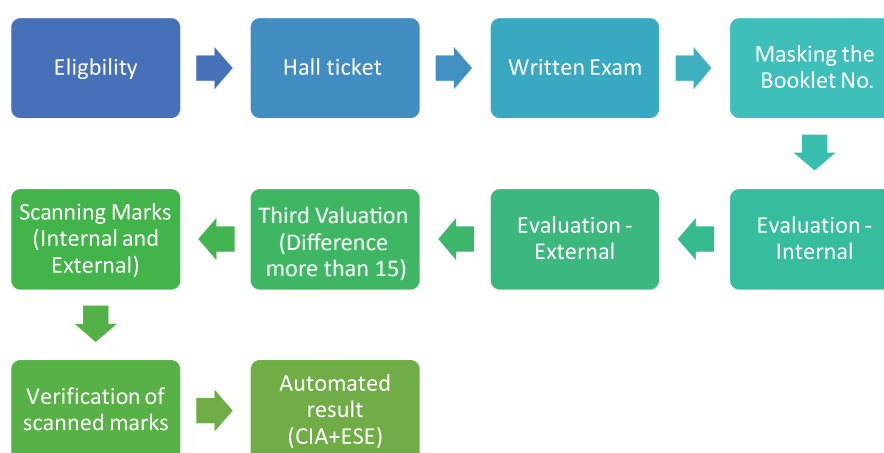

- The first steps starts with the appointment of examiners for each semester which shall be made and confirmed before 30 days of the commencement of the examination for both theory and practical. The list of examiners and reviewers are prepared and handed over to board of evaluation for the conduct of centralized valuation.
- In case of UG – The list of internal evaluator and the reviewer will be handed over to BoE.
- In case of PG – The list of internal evaluator and external evaluator will be handed over to BoE.
- In case of practical and Viva voce examination - The list of internal evaluator and external evaluator will be handed over to BoE.
- Online examination – Computerized evaluation is integrated into the system.

The process of Online examination

The evaluation process of Written examination (UG – Internal Evaluator)

- The board of evaluation will receive the answer scripts on session basis from the board of examination and the scripts are recoded with random barcode numbers. After recoding the answer scripts are ready for evaluation.
- The examiner/Evaluator and reviewer will jointly prepare the answer key and has to submit the same to the board of evaluation before they start the evaluation.
- The answer scripts are evaluated by the Examiner/Evaluator and then reviewed by the reviewer. The reviewer values the 20% of the answer scripts and will check the total of all the scripts.
- The marks will be entered in the portal by the evaluator, and the entered marks will be duly verified by the Custodian of the evaluation.
- On completion of entire evaluation, the results will be published in the GCU portal.

Norms of Revaluation

- Revaluation norms as created by the Office of Controller of Examinations, Garden City University is as per the standards of the University Academic Evaluation Standards and any decision considered by the Garden City University Evaluation & Assessment Committee will stand as final statement (duly signed by the Registrar, Garden City University).
- The student should remit the revaluation fee of Seven hundred and fifty rupees only for individual course/paper through online. This is to inform the student that a receipt no. will be generated once the online payment is accepted at our end.

Universitel

Garden City University has hosted stalwarts and guests from all over the world for the past 27 years. To expand the scope of its hospitality, GCU has established Universitel, a full-fledged hotel right at its campus. Starting from the rooms to cuisines to service to the environment, Universitel is at par with any top-of-the-line hotels in the Indian peninsula. Each of the rooms has been thoughtfully designed with finest fabrics and fittings and the latest mod-cons. The rooms are fully air-conditioned and equipped with televisions, refrigerators with stock, tea and coffee making facilities, laundry facilities and study tables. The large attached toilets are clean, hygienic and fitted with geysers keeping in mind the Bangalore weather. The guests will have access to complimentary Wifi service throughout their stay. The Universitel is little over an hour away from all important destinations of Bangalore. Therefore, if you have an appointment to keep or an invitation to attend, reaching the desired place from Universitel won't be a problem even at the odd hours.

Medical Facilities

The medical desk at the campus is well stocked with medications for immediate primary medical aid to the students. Doctors are available on call. An ambulance is stationed on the campus and is on service 24x7. Health check-up and awareness programmes, blood donation camps, medical service & social camps are regularly organized in association with leading hospitals.

Food Court

At GCU, the food is tasty, nutritious and easy on the pocket too. The cuisine offered is both Indian and global in variety. The Indian spread spans North to South and East to West. The mall styled food court of the campus is very convenient when you want to grab a quick bite.

Central Kitchen & Dining Hall

GCU believes that healthy food treats healthy minds. Sourcing certified ingredients from the best of the vendors is the key to preparing good food. Prepared in the most hygienic conditions every meal is served piping hot at the students dining hall. The hall is itself well laid out and helps one to keep the best dining etiquettes. The entry to the dining hall is with access controlled cards.

Bus Facilities

A fleet of buses with the best of safety features ferry students and faculty members from around the city connecting key interchange areas.

Other Facilities

In-campus Bank

GCU has an in-house branch of Syndicate Bank and Federal Bank with ATM facility. The banks offer a host of student friendly schemes that aids the finances during the tenure of their course.

Anti-Ragging Measures

- ❖ Government/University Grants Commission (UGC), guidelines notified vide no.F.1-16/2009 (CPP-II) dated 21-10-2009 on Curbing the Menace of Ragging in Higher Educational Institutions, 2009 (Under Section 26(1) (g) of the University Grants Commission Act, 1956) are strictly implemented at Garden City University, Bengaluru.
- ❖ The Advertisement for Admissions clearly mentions: "Ragging is totally banned in Garden City University and anyone found guilty of ragging and/or abetting ragging will be appropriately punished"
- ❖ Garden City University conducted awareness programme on anti-ragging & consequences of ragging & hand-outs with full text of Anti-Ragging Regulations was given.
- ❖ Filing of a complaint by the affected student with the Police Authority (as per the Supreme Court's Directive) is implemented as well.
- ❖ Continuous watch and vigil over ragging is done by the University.
- ❖ The application form for admission/enrolment has a printed undertaking to be filled up and signed by the candidate to the effect that he/she is aware of the institution's approach towards ragging and the punishments to which he or she shall be liable if found guilty of ragging. A similar undertaking is obtained from the parent/guardian of the applicant.
- ❖ Students are encouraged to report any ragging act witnessed or experienced by them to the University administrators, faculty, Student Affairs and Grievances Committee or other any staff member with whom the student may feel comfortable.
- ❖ Anti-ragging movement is initiated by Garden City University right from the time of advertisement for admissions. The prospectus, the form for admission and/or any other literature issued to the aspirants for admission is clearly mentioned that ragging is banned in the university and anyone indulging in ragging is likely to receive deterrent punishment.

Disciplinary action / Punishments against Ragging in place at GCU

Awareness Campaigns- Anti-Ragging, Substance Abuse, Healthy Eating

- The University has been educating/ updating the students and their parents enrolled in various programmes in the University to be informed on Anti-Ragging activities before the beginning of the academic session 2018-19. This has helped us as is evident from the fact that no case of ragging was reported during the year 2018-19.
- In the Prospectus for Admission published by the University it is clearly stipulated that in case the applicant for admission is found indulged in ragging he/ she may be expelled from the University. The University website is also running an anti-ragging campaign since 2018-19.
- Undertaking from Students and Parents: Each of the student of the University and his/her parents or Guardian are hereby

required to submit separate undertakings in the form of an affidavit at the time admission/ registration, in the format prescribed by UGC as attached to this office order, which is mandatory for admission/ registration.

- Formation of Committees and Squads: Complying with the directives of the Hon'ble Supreme Court of India, the University has formed the Anti-Ragging Committee and squad for overseeing the implementation of the provisions of the verdict with immediate effect.
- The University level Anti-Ragging Committee and squad shall work to oversee the implementation of the recommendations in tune with the UGC Regulations.
- Garden City University displays the Anti – Ragging posters inside the campus for creating awareness among the students.

Substance Abuse

The Counselling services at the Garden City University helps the students to come out with their problems through Student Support Services Cell. The Counselling Centre is monitored by Psychology Department and has been providing services like individual counselling and developmental group activities for GCU students. It is open six days a week and its hours are adapted to students needs. The Counsellors help the students in their day-to-day concerns and also enhance their overall functioning. Workshops on topics relevant to increasing the capacities of the students are regularly conducted by the Counsellors.

The Process of Counselling:

At Garden City University, counselling is a systematic process involving the following steps:

- Counselling provides a safe and trusting environment.
- It helps the person understand their concerns clearly and resolve them.
- The counsellors listen to students/clients issues/concerns in a non-judgmental manner.
- Counsellors help clients to generate solutions to their problems.
- Psychological Support service is provided for students who present with acute and transient conditions and common mental health problems such as examination anxiety, adjustment and mood disorders, or ongoing problems from interpersonal and personality difficulties.

Healthy Eating

At GCU, Healthy eating is of utmost importance. Predominately, all the seasonal ingredients are procured from GCU Organic farm. The efforts provide an opportunity for the students and other stakeholders of GCU to enjoy a healthy, tasty, and nutritious meal. A standard committee comprises of students, faculty members, chefs, and administrative staff members who meet on a periodical basis to review the quality of the food served, analyze the satisfaction report, plan a cyclic menu, hygiene and cleanliness parameters are discussed in detail. A balanced meal and menu which caters to the needs of students from across geographical locations are provided. To monitor the quality, a roster system is followed to check the food quality served in the university. A food tasting sheet which covers the quality parameters of the food, cleanliness, and upkeep of the kitchen and storage areas is provided to the faculty designated to monitor the quality. If there are any deviations observed, and corrective measures are taken.

Besides, periodic inspections are carried out in Food & Beverage vendors to check the quality of the food served to the students, their standard followed in the production process, cleanliness and upkeep of the unit.

Besides, an awareness drive on healthy eating habits is conducted to ensure that students reduce the intake of junk foods and opt for healthy food choice.

Anti Sexual Harassment Cell

The aim of the cell is to develop the guidelines and norms for policies against the sexual harassment in all its forms and its implementation. This will be achieved by organizing gender sensitization awareness programs and dealing with the cases of discrimination and sexual harassment as and when arise. This objective is achieved by establishing an Anti Sexual Harassment Cell.

Parents Teachers Meeting

We at GCU believe that Parents, Teachers and Alumni are the three pillars that mold a student as they build their career path. As parents ensure to give the best education to their child we assure to deliver the best. The progress of every student is enabled through structured mentoring and handholding during critical junctures of the academic journey. The parent teacher meet is one of the important components that brings at par the expectation of the parents and the performance of the student.

The parents are intimated about the meeting well in advance by the class teachers. As the University has students from across the country and the world it is not easy for the parents to travel hence, we had made provisions are made to schedule a video call on WhatsApp or schedule a SKYPE chat at their convenient time.

International Cell

At Garden City University we strive for academic collaborations with premier Universities to broaden the horizons of the university as well as its students, as it provides them an experience that oversteps textbooks and geographical boundaries. The main objective of these collaborations is to gain knowledge about the cultural diversity, technology, education, history and traditions of the host countries. It emphasizes on experiential learning and defines an enlightening outcome from every experience that a student would have during the programme.

Universidad Camilo José Cela (UCJC), Madrid, Spain and Garden City University Fellowship Program

2nd to 16th June 2018

Garden City University, conducted a 14-day study abroad programme from June 2 - June 16, 2018. The remarkable trip provided a wonderful opportunity to the students to experience the rich culture and vibrant heritage of France and Spain.

June 3-4, 2018:

The students arrived at Charles de Gaulle International Airport on June 3, 2018. They were received by Mr. Christo Joseph, FRSA London and Director Strategy and Planning, Garden City University, at the airport. The students checked into the hotel, post which they spent the day enjoying the picturesque scene of the city of Paris.

The walking tour included sighting of beautiful and ancient monuments, Parisian art and cultural performances, and heritage tours, were truly enjoyed by the students.

The Basilica of the Sacred Heart of Paris, Invalides Musee de l'Armee, The Pont Alexandre III, Seine River Cruise, Luxor Obelisk, Arc de Triomphe and of course the Eiffel Tower, were few of the remarkable landmarks that the students visited.

The students also enjoyed authentic Parisian cuisines and delicacies on the bank of the Seine River.

The next day, the students visited City University Paris, one of the most renowned educational institutions in Paris. This was followed by a shopping expedition, post which the students boarded the bus to Madrid, Spain.

June 5-16, 2018:

The students arrived in Madrid, Spain on June 5, 2018 and were received by the representatives of the host University, Universidad Camilo José Cela. There they completed an 80 hours programme on " India-Spain Exchange: Culture, Education, and Health", offered by UCJC. The programme aimed at -

- Providing the opportunity to earn credits internationally
- Awareness and adoption of alternative, multi-faceted approaches to learning
- Enhanced interest in global issues as well as a broader general knowledge
- Personal Development

The students were given the opportunity to understand the rich culture of Spain, learn the basics of Spanish language, understand the Spanish education system, its economy, as well as healthcare system. The sessions were followed by trips to the heart of Madrid city, enjoying the traditional delicacies of Spain, watching Flamenco dance performance, visit to the Real Madrid Stadium - Santiago Bernabeu, one-day tours to the neighbouring cities which are also UNESCO World Heritage Site, Toledo and Segovia, and other local sites in Madrid.

All the students successfully completed the programme and earned their diplomas. This was a unique opportunity for all the students and they look forward to being a part of other such opportunities that will come their way.

Report on Career Tourism India –Maldives Student Exchange Programme

21st to 28th February, 2019

A seven-day international student exchange programme was organized at Garden City University from 21st February to 28th February, 2019 to promote the cross boundary educational extension policy of our University. The main objective of conducting such intensive training sessions for the participants visiting us from different countries, is to integrate the concept of value-based education among the students as well as promote the rich cultural heritage of our nation. The training modules were designed by our University which encompassed topics from different fields such as tourism, hospitality management, health and fitness, fashion designing, psychology, media studies, apiculture and other related subjects. The lecture sessions were conducted by the faculty members representing different school of studies at our University.

The batch of students representing different academic institutions from Maldives participated in the seven days intensive training programme which helped them to unveil various concepts pertaining to their areas of interest. This flagship programme of our University was planned to demonstrate the methodologies of teaching learning practices followed at our University and to make the attendees aware of the subjects being taught as our academic programmes.

The Office of the Honorary Consul of The Republic of Maldives in Bangalore and an academic forum in Maldives collaborated for the execution of this Career Tourism programme.

E-Governance:

At GCU our principles of e-governance system are designed as per the doctrines opined by the strategy and planning committee.

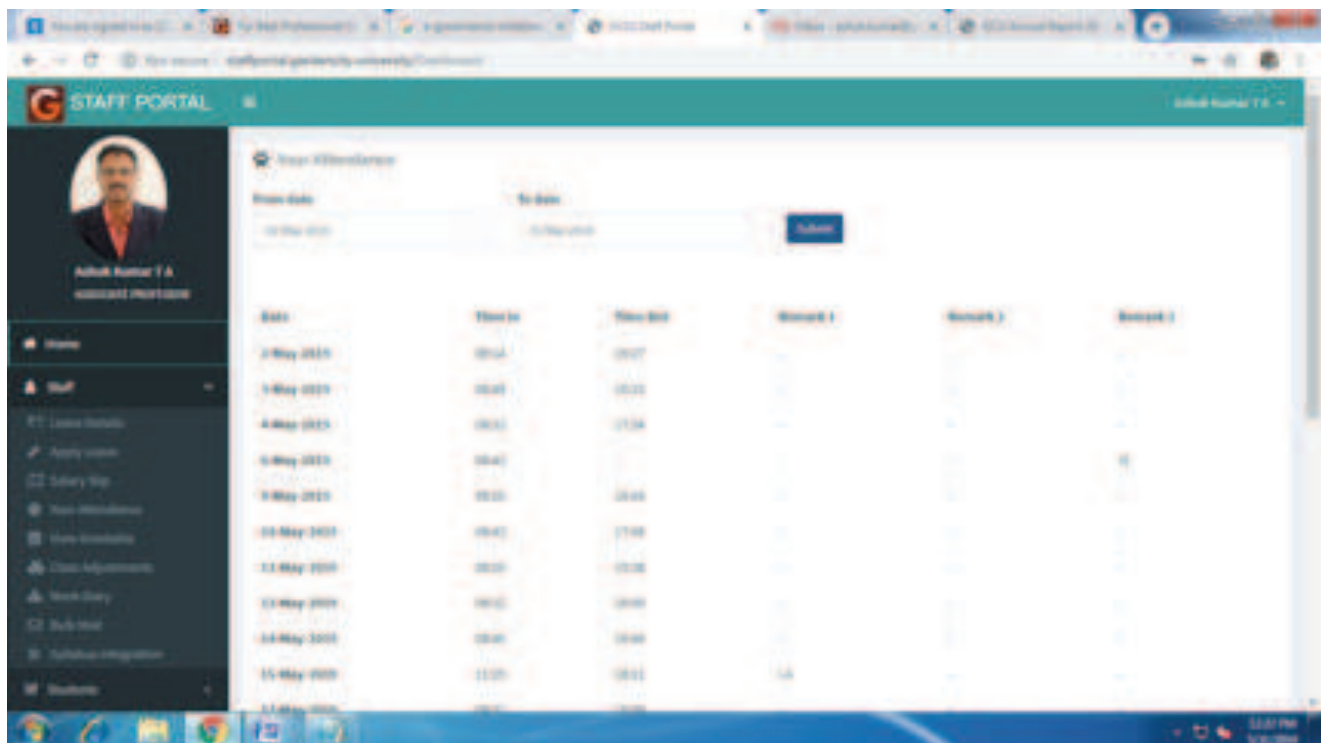

The major strengths of introducing e-governance system are listed as below:

- Enabling implementation of consecutive models for enhancing quality education and standardizing curriculum delivery methods.
- Effective utilization of intellectual resources, minimizing wastage of time in exploring opportunities or desired objects of knowledge appropriate to the requirement.
- Providing fair system to organize or conduct the assessment process.
- Providing e-books & e-journals, utilizing the repository of contents generated so far and the automation of evaluation processes. Creating a high impact brand for journals in leading disciplines.
- Aims to reduce the limitations for distance and accessibility.
- Overriding administrative delays in education system.
- Utilization of the optimal resource/auditing and forward planning.

- Online availability of industry experts for enhancing the chances of career progression.

E-governance system at our University incorporates the following:

- Online feedback system.
- Centralized Academic Auditing.
- Grievance Redressal Unit.
- Student and Staff Portal.
- Online Fee Payment Portal.
- Course Curriculum and Internal Assignment through e-centralized system.
- Repository e) Assignment Evaluation System.
- Automatic Online Internal Assessment Portal.
- Online assessment for project evaluation.
- Online Admission Process and Entrance Examination.
- Examination Portal QP generation, Hall Tickets, unique QR Code in Answer scripts etc.,

Institutional Social Responsibility

Knowledge is power and has been the significant criteria in the growth and development of the society. Learning and acquiring knowledge is a continuous process and this is possible with an active collaboration between people, educational institutions and industry.

Technologies are growing rapidly and changing the way we live. Updating skills is the key to success today. There is need to keep enhancing the way education is imparted at Educational Institutions from schools to universities.

At every level, we need to understand and analyze what we learn and its relevance to our future. At our University GCU, we have included this process and attained positive results. We wish to take forward this concept of "Emphasis on Life and Enhanced Learning" to various schools as a part of our Institutional Social Responsibility (ISR)

This idea has been initiated by our Chancellor, H E Dr. Joseph V G, who has 35 years of rich experience in the field of Higher Education. He has established the institution with a vision is to improve the quality of human life through advanced level programs in Science, Health Sciences and Management, etc which would be recognized internationally for excellence.

The University has given fair opportunities to bright middle- and lower-income group students and offers magnanimous scholarships to encourage them to take up higher education.

In a short span of 3 years, The University has created a niche for itself by achieving success in academics, technical competitions, and sports. It has created a platform for students to learn with interest and experiment with various technologies to provide innovative solutions.

VISAKA

The NSS Units of Garden City University extended its vista by engaging in yet another important social activity by adoption of K R Puram Market for VISAKA (Go Digital-Digital Payments, RuPay / Debit Card, USSD, AEPS, UPI...)

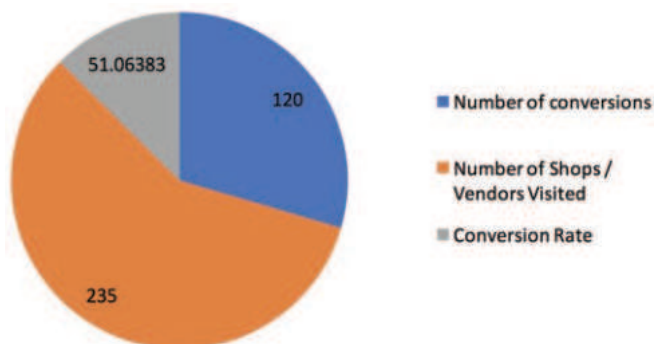

To promote the "Go Digital "or "Cashless" initiative taken by the Government. The Activity Was conducted on 22-12-18 and 12-02-2019, where the student volunteers, headed by NSS Programme Officer, Mr. Shivamurthaiah M, Assistant Professor, Department of Computer Science. He was assisted by Capt. Vishnu P NCC Officer.

The Trainers for the First Stage included

1. Ms. Nagamani S Assistant Professor Department of Computer Science
2. Ms. Madhavi Giridhar D Assistant Professor Department of Computer Science
3. Mr. James Jacob Information Technology Manager

Best Practices

ACADEMICS:

1. Garden City University curates a detailed academic calendar at the beginning of every academic year and all activities are carried out while strictly adhering to the same.
2. Fresherism, a week-long fresher's orientation programmes for newly enrolled students are conducted at the beginning of every academic year. The students are inducted with the opportunities that the University offers and get familiarized with the facilities in the University.
3. At the beginning of every new academic year, the students are provided with student's handbook consisting of all related information pertaining to academic practices and generic information pertaining to administrative practices. All the information is shared with the students through portal and e-mail.
4. The newly enrolled students are familiarized with the two libraries to inculcate amongst the students the habit of reading and to expose them to the vast reading repository of the University. The University Library, which has a vast repository of books, journals, periodicals and online resources, is supported by the librarian and other staffs which works till 10 pm for every day.
5. A Continuous Internal Evaluation (CIA) process has been adopted for all programmes of study in the University. The CIA marks is assessed for 40 marks and 20 marks (for 100 marks and 50 marks subject respectively). The major components of CIA assessment include – class participation, timely submission of assignments, interim assessment, teacher's prerogative (participation in extra-curricular and co-curricular activities). The Choice Based Credit System (CBCS) is the basic structure followed for developing the curriculum. The "KLAAP" model which was inspired by the principles of Bloom's Taxonomy is mathematically designed to evaluate the learning outcome weightage percentage for an individual course.
6. Online system operated examination process is in practice at the University. An individual faculty in charge for a particular paper will prepare a question bank and will submit into the portal. The portal is created with an algorithm that will randomly select questions from the question bank and will give sets of the question paper which can only be accessed by the Controller of Examination (COE) only half an hour before the start of the examination. The seat matrix allocation is also generated through the online portal which depends on the algorithm designed based on the date of examination, classroom number and the allotted number of the students. The question bank is reviewed by the students and peer members in the department. The admit card for the examination can be downloaded from the portal by the students who are eligible to appear for the examination. An online examination for elective subject is also conducted for the students as a part of Auto-evaluation based examination.
7. The University promotes application of the concept learnt through minor projects. To emphasize on the research and innovation, the University has constituted a research forum, GCU PERFECT – Projects Establishing Research Fraternity and Enhancing Core Technology. The aim of the minor projects is to instill research oriented study among the students and to create a pool of research projects which will have social impact and further scope of development. GCU PERFECT collated 72 projects of core and interdisciplinary courses. Each of these research proposals were granted research funds from the Chancellor's Office.
8. The students are also assessed based on their level of participation in various co-curricular activities like quiz, debates, drama, music, theatre, elocution etc. The assessment method consists of a list of innovative 40 assessment techniques which incorporates factors like participation in intra departmental and inter-collegiate events and also the capability of students organizing the events.
9. The students are encouraged to do internships and research projects at reputed institutions outside. The credits are added into the marks card as 6 credits and a report submission post the internship is also to be submitted for evaluation purpose. The first induction workshop for the PG Internship Programme in collaboration with Putra Business School, Malaysia was conducted in the month of September.
10. Every alternative Saturdays in a month, a research colloquium forum conducts a panel discussion and brainstorming session on Research Methodology and recent innovations in core and interdisciplinary research. These sessions are also attended by the PhD scholars, teaching staffs and students with research orientation. This discussion forum proposes for a white paper submission to the research and innovation council of the University about the latest findings on the discussion outcomes.
11. The students are encouraged to submit their abstracts and full paper for national and international conferences

both internal departments and external University. After the inception of the University, it has organized two international conferences which encompassed themes like knowledge transfer, data security, corporate social responsibility etc.

12. The University also constitute an Innovation club which deals with exchange of innovative ideas between the students and the faculty members to generate product based on a particular idea. The idea is generally curated by the panel of experts which includes research scholars, patent attorney and angel investors. To promote the "idea to product" concept, GCU has initiated "Chancellor's Young Innovators Award" to enhance the research & innovation practices among the students. The first phase of the event was organized on 14th September, 2018 and a total of 31 project proposals were submitted. All the projects submitted are under the inspection of the patent attorney to understand the chances of patent registration for the individual idea.
12. The University has an ILEAP (INNOVATIVE LEARNING AND ENGAGING ACADEMIC PRACTICES) forum which holds regular interactions and meetings to discuss on best teaching practices and design innovative pedagogical tools. The best teaching methodology is presented in front of the teaching fraternity of the University and other faculty members.
13. The evaluation procedure in the University follows a robust online cloud assisted process which involves online creation of the assignment, online submission of the assignment, online criteria based assessment, allocation of marks for class participation, timely submission of assignment, participation for extra-curricular activities etc. The assessment marks are also displayed online through the portal. The students can also view any suggestions that the faculty member have forwarded through their portal into the student's portal.
14. The online portal for the students also constitute of the repository resources, which the students can refer for their course preparation. The faculty member also uploads reading material content pertaining to the recent researches in the field of study.
15. The students can also submit feedback for a particular session through the online portal. The feedback questions are marked with particular score and assembly of all the scores results into a cumulative feedback score for an individual faculty. After the cumulative score being assessed in the feedback management report, any faculty in-charge with least cumulative score will be meeting the Registrar and suggestions from the Office of the Registrar is discussed with the concerned faculty member.
16. The students of the University can submit their grievance pertaining to any academic or any other activities in the campus through the portal. The anonymity of the student submitting the grievance through the portal is kept hidden for the administrator. The grievance registered through the portal can be tracked through the text messages and the redressal of the registered grievance will be done within 24 hours from the time of registration.
17. The questions in the question bank format are distributed based on the learning outcome model "KLAAP" as 15 % is defined for questions pertaining to "Know & Remember", 20 % is defined for "To Learn & Understand", 30 % is defined for questions pertaining to "Analyze" and 35% is defined for "To Apply". The questions are also distributed in the question bank based on the concepts and units. The algorithm designed for random selection of questions is based on the KLAAP, concepts of the units, number of units/sub-units.
18. The students of the University can also enroll for the GCU Finishing School which hones the soft skills and the technical skills of our students and prepares them for the industry. The School of Sciences organizes Scientific Skill Enhancement Programme (SSEP) for all the PG students in the field of Pharmacovigilance, Clinical Data Management, Scope of Clinical Research, and Managerial skillsets. The last batch of SSEP shown an excellent result as 75 % of the graduated students from the programme were enrolled for placement and internship drives.

Personal Academic Advisor (PAA)

Report 2018-19

PAA strives to increase student success at GCU by connecting students with a faculty member. Faculty members use Motivational Interviewing principles, programme expectations, campus resources, and referral process to aid and advise their students. The Motivational Interviewing encourages the student to change their academic performance, behaviour and engage in positive opportunities for growth and development.

Goals of PAA

- Monitor student's academic performance and suggest measures for successful progression.
- Evaluate academic interest and recommend elective or add-on courses.

- Create an awareness of the rules and regulations of the University to increase accountability for personal behaviour on the student's part.
- To understand student intrinsic and extrinsic factors affecting academic progress and reduce dropouts and increase student success.

In order to meet those goals, a student (mentee) is paired with a faculty member (PAA Personal Academic Advisor), whom they meet with an average of four times over a semester. During the scheduled one-on-one meetings, the mentee and mentor develop a relationship which focuses on student engagement, healthy choices, academic success, examination of social situations from different perspectives, and student success at GCU.

Alumni Network

Garden City University (previously Garden City College) celebrating its 26th Anniversary stands proud of its 14,000+ strong alumni spread across the globe. GCU has been a home for students from 81 nations to this day and the family is growing.

The life experiences at GCU with the motto "Emphasis on Life" definitely ingrains a belongingness in the minds of every student graduating from here. This is evident in the way our alumni connects to GCU even when they are far away from their alma mater.

To strengthen the camaraderie and bonding the registered central Alumni Association of GCU extended its reach through installation of various alumni chapters across the nation. Purv - The Eastern Chapter, Paschim - The Western Chapter and Dakshin - The Southern Chapter, ensuring that the alumni spread across the region has enough opportunities to connect, share and grow.

The REUNION on the Garden City University campus is held on the 3rd SATURDAY OF EVERY JUNE. Chairman Dr Joseph's birthday which is on 18th of June is dedicated to the alumni as the reunion day.

You take step and we together take a leap

Concept of Yoga and Ayurveda

Yoga practise and Ayurveda fundamentals are taught at Garden City University due to its effect on the quality of life of the people practising it. On inculcating such practices the effect is on comprehensive health, both individual and social, which makes it a worthy inclusion for the people of all religions, races and nationalities. The practice of Yoga is growing and being brought to the forefront of healthy living every day.

CREATE

GCU CREATE - Culture, Region, Evolution and Tradition in Education

The regional days are celebrated by GCU Students to showcase their Indian and foreign culture, ethnicity and tradition through cultural events, dressing and cuisine. You get to share cultural characteristics and tradition with fellow Gardenians. The GCU campus turns into a Mini-World full of vibrant colours, style, grace and beauty.

Industry Academia Connect

Garden City University upholds its belief that a student should always be offered the best exposure to grow, in all possible ways. The University believes that there are multiple facets of growth and development, many of which are related to external factors. Keeping this in mind, the University emphasizes on Industry-Academia Connect.

The term Industry-Academia Connect is considered to be of utmost importance by all academicians. The relevance of this terminology has increased over the years, with professionals on both sides understanding how important it is for today's students and tomorrow's employees to have knowledge about how the industry works, which are the current trends and what are the skillsets required that could make them employable.

At Garden City University, departments conduct various events, in association with their specific industries. The changing scenarios of the industries, the recent advances, etc. are updated to the students through various activities. Some of the activities which are being conducted at Garden City University, for Industry Academia Connect include –

UP CLOSE WITH GARDEN CITY UNIVERSITY

Our Motto

EMPHASIS ON LIFE

A University for Learners that emphasizes on life, upholding the Emotional Quotient that it develops amongst its Learners and Teachers in the pursuit of acquiring and enhancing the Outlook Quotient which is nothing but Intelligence Quotient through all angles including peer to peer and instilling in them values through its Life Quotient initiatives in making them better human beings for the immediate society and the world at large. Thus, Emphasis on life.

MISSION

The Mission of Garden City University is to evolve, synthesize and spread the power of knowledge to arm the new millennium through world class initiatives and academic practices that focus on overall development of students.

VISION

The vision is to be a University that will offer affordable world class education to all classes of students in order to uplift the society we serve, by nurturing human values and ethics and by imparting knowledge which emphasizes on life skills.

The Beginning

Garden City University had a humble beginning in the year 1992 as Garden City College of Science and Management Studies founded by Dr. Joseph V. G. The simple ideal behind the institution was to create skilled manpower and above all make students to be morally responsible in uplifting the society.

Dr. Joseph V. G., although had begun the institution as a means for his livelihood soon realized that he was on a mission that directly involved nation building. As such right from the word go, Garden City College simply believed that Higher Education is seamless and it's not just the class room learning that is essential but the skills to manage life was more important.

At a time when competitions was getting fiercer by the day in producing academic robots Dr. Joseph's institution worked on the core idea of making better human beings out of every individual that pass through its educational portals.

Thus **"Emphasis on Life"** has been the strength, the vision and mission aligning with the ethos of Garden City University.

Garden City University is a prominent name in the higher education sector of the country. It hosts students from 80 nations across the globe, and is the hub for innovation and pioneering creativity. Established under the Karnataka State Act no 47, of the year 2013, the University is a successor of a legacy which has run more than two and a half decades. The Garden City Group of Institutions have been in the forefront of providing quality education to various strata of the society, and along the way empowering students with the ability to succeed not just as expert professionals, but also with the ability to touch and change lives.

Garden City University has an array of programmes to offer ranging from Information Technology, Management and Commerce, Humanities and Social Sciences, Life Sciences and Paramedical, Media and Fashion, to Hospitality and Tourism, catering to a diverse crowd with diverse background. The University is equipped with its state-of-the-art facilities, basic and advanced labs, new age technology and learning tools, etc. Further, GCU offers its students global exposure, innovative programmes, hands-on experience in problem solving and management of resources, robust industry interface and alumni networks coupled with mentoring from outstanding faculty and industry experts.

Concept

At Garden City University, our primary focus is on revolutionising the outlook of education in India by raising existing standards and elevating our students employability, skills and knowledge.

Our emphasis is on skill-based education in order to make our students employable globally. We venture into this youthful space where students in their quest for higher education are able to assess their potential and select a requisite study program.

GCU is a learner centric University that allows its main stakeholders – its students, the flexibility and the responsibility to choose what they want to study. GCU offers its students 6 different study routes:

1. The Scholarly Route
2. The Managerial Route
3. The Skill based Route
4. The Research Route
5. The Entrepreneurial Route and
6. The Academic Route

GCU stands by its motto of **“Emphasis on Life”** and works on both the Emotional Quotient and the Intelligence Quotient of its students. Emotional Quotient ensures that the learning is multi - dimensional and the Teacher-Student bond is epitomized. Intelligence Quotient encompasses learning from all angles, including learning from and amongst peers, which stimulates creativity.

The GCU programmes are modeled to achieve both vertical and horizontal growth. This is to ensure that students have the freedom to pick their core courses and take up subjects that may be outside their field of study. The curriculum at Garden City University is designed in such a way, that it would not just stand out, but also increase the involvement of its stakeholders in the process. The presence of technology interventions at all levels will make study at GCU an exhilarating experience.

Our exclusive Learning Management System is being heralded as a catalyst for change in the education field and will be one of our greatest strengths. Rapid interactive tools and virtual/ augmented reality based learning experiences are additions that will give the students a comprehensive outlook to explore various learning avenues.

Some concepts that have branded GCU to be a learner centric University are:

1. Management Trainee Concept
2. CREATE
3. ARM Strategy

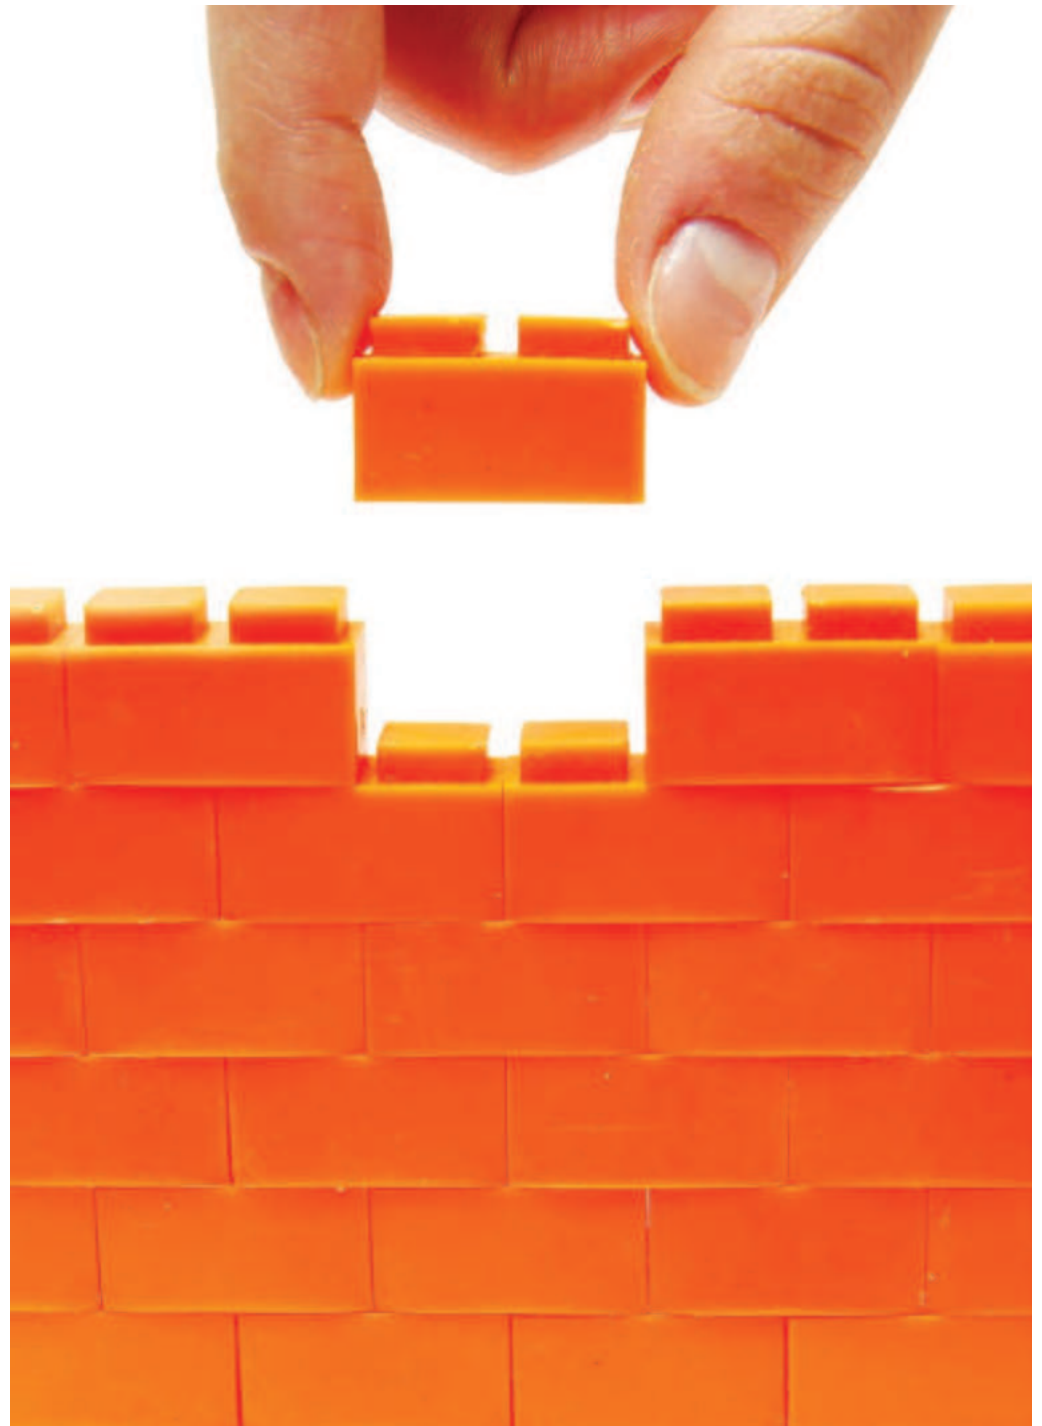

Management Trainee concept: The Management Trainee program aims at creating empowered managers with an inherent ability to lead confidently and enthusiastically both as individuals and as team players. A plethora of events unfold throughout the year at GCU and students manage the events from their inception until their conclusion, under the guidance of a faculty convener. Students from various streams are selected for the position of Management Trainee (MT) and are allotted important responsibilities. These MTs then build a team of students around them and handle the events. The students gain incredible firsthand knowledge during the process of conducting these events.

CREATE (Culture, Region, Evolution and Tradition in Education) This concept was implemented to develop and improve “Practical Exposure Quotient (PEQ)” amongst both students and faculty and benefitting all stakeholders to exhibit better inter team coordination amongst departments. ‘CREATE’ adds value to students in terms of soft skills and aligns them with our motto of Emphasis on Life. The ideation behind CREATE was, that every Department provide a faculty member and five students, in consultation with the programme convener, to contribute to an event conducted by the University. GCU builds its robust universe of education adapting the questioning module at all its levels. Every aspect is dealt with on the following principle –

“Forecasting, Connecting, Pursuing, Clarifying and Recounting”.

This principle instills in students a deeper sense of commitment both in terms of what they choose to study and shape their potential careers.

ARM Strategy: With years of innovation and insight behind us, we strive to bring in radical changes in academic pedagogy, taking cue from the ‘ARM Strategy’ introduced at Garden City University. ARM stands for – Ambition, Resources and Mentoring; where in, we help a student focus on their ambition, provide them adequate resources, and mentor them holistically so as help them achieve their goals. We take our University Social Responsibility (USR) very seriously and make it mandatory for all stakeholders to respect the eco system where the University is built and notably give back to society. The entire campus is built with a green purpose integrating everything that is needed to preserve the ecology and reduce our carbon footprint. The culture of education here at GCU is to foster positive emotions, build stronger relationships and achieve a sense of purpose, in line with our values and beliefs.

Objects

The larger objects of the University:

 Honour and glory, ever follow you
 Salute to you, beloved GCU
 May goodwill and success meet in you
 GCU.....Emphasis on Life
 GCU....Emphasis on Life

An Incredible Journey...

25 years' credibility

An institution's age and its constant innovation coupled with how its students are placed professionally defines its credibility. Garden City College of Science and Management Studies established in 1992 has a legacy of dispensing quality education and the result of this yeomen service, today it's a University.

Garden City Education Trust was founded in the year 1992 by Dr. Joseph V.G. He has over 35 years of Experience in the field of education. The Trust was formed in 1992 with the support of likeminded educationists like Late Prof Shivarudrappa - former Dean, Dharwad University, Late Dr Hanumanthappa former Vice Chancellor, Bangalore University, Prof V.B. Coutinho, former Vice Chancellor, Gulbarga University and Prof Rame Gowda, former Vice Chancellor of the Karnataka State Open University. The Trust was established to set up Centres for educational excellence that would accept only qualitative practices nurturing students with value based education.

The Trust began its operations with Garden City College of Science and Management Studies offering programs under the Bangalore University affiliation. The institution went on to bag the highest grade of "A" when assessed by the National Assessment and Accreditation Council - the premier accreditation body under the UGC. The Institutions is ISO 9001:2008 and ISO 14001:2004 certified as well.

In 2013, the benign Government of Karnataka passed the "Garden City University Act", considering the merits of the Garden City Education Trust to set up Garden City University.

Dr Joseph V.G is an educationist par excellence who at a very young age proposed to bring forth qualitative changes in the Education scenario in

EMPHASIS ON LIFE

India. He strongly believed that the rudimentary system should be formatted with a complete practical approach and has to be inclusive giving everyone an equal opportunity for higher studies.

The result of his dream has been the emergence of one of the most sought after educational institutions in the country today – The Garden City Group of Institutions. As its Founder Chairman the group has crossed several milestones surging ahead aligning with his signature line of creating Dreamers, Achievers and Winners in each of these institutions. His passion for education can be seen at all his institutions which have created a niche for themselves in not being elementary learning centres. His emphasis is always to create individuals with practical thinking. He has inspired several thousand students from across the globe who have been nurtured under the banner of the Garden City Group of Institutions.

The group presently comprises of:

Garden City College of Science and Management Studies at Sannathamanahalli, Bangalore-49

Garden City College of Physiotherapy at Vidyanagar, Bangalore – 560036

Garden City Foundation Pvt Ltd at Indiranagar, Bangalore – 560038

Garden City University headquartered in Bangalore

Devamatha Central School, Banaswadi, Bangalore-560043

Devamatha Central School, Vidyaranyapura, Bangalore- 560097

The avenues for an average aspirant of today desiring to pursue higher education in India are multifold. Aspirants have to choose from among State run Universities, Central Universities, Deemed to be Universities, Autonomous Institutions and State Private Universities.

Each of the options cited above has its due strengths and weakness although each route takes an aspirant to the same destination which is to obtain a degree that is recognized both in India and the world over. Although India produces the highest number of intellectual capital, it has one of the lowest Gross Enrolment Ratio (GER) in Higher Education among the BRIC nations. Now with the Government taking the stand of reaching 30 per cent GER by 2020, the requirement of Indian Universities stands at 1900 from the existing 800. India needs Universities in large numbers and the Government although has increased the expenditure on education, will not be able to meet the target unless quality State Private Universities take the lead and responsibility.

Garden City University is one such University established under the Karnataka State Act 47 of 2013 which will re-shape the Education scenario in India by enhancing the learning avenues and building a robust dissemination of education. The main object of Garden City University is to support, promote and undertake advancement of an innovation in University Education leading up to and including Post Graduate, Doctoral and Post-doctoral courses in Technical, Health, Management, Life Sciences, Agriculture, Law and allied sectors and make provisions for research, advancement and dissemination of knowledge including consultancy in these fields.

The Garden City University will be the part of a larger ecosystem in order to find better placements and hence a host of activities and projects surrounding the University will supplement the professional growth of its students. The Garden City Township that houses the University is a pride project of East Bangalore.
